

Nature MOBILE

HOW TO MAKE IT!

This activity is a perfect way to get in touch with nature! Head out on a long walk or just explore around your yard, you can find the perfect items anywhere! Start by finding a medium sized branch to build your mobile on. Next, begin collecting leaves, feathers, flowers, acorns, shells, and so forth that you like!

When you are ready to begin assembling your mobile, prepare your string in different lengths so that the items hang at varying heights. Knot the string around the branch and then knot the other end around your item! Find a wall or window to hang your new mobile in and enjoy!
